

The Foundation for Infant Loss Training
Accredited Training for Professionals
Supporting families following a Pregnancy or Infant Loss
Training Dates: 2019

"I have found the entire programme extremely informative and this will undoubtedly reinforce my confidence and ability as a Cruse bereavement volunteer to deal with and support unfortunate bereaved parents. Thank you so much to the entire Infant Loss Foundation team for the privilege of experiencing this wonderful training programme" (John Purdie CRUSE Volunteer)

As a means to an introduction, we have been established for over a decade for our work in training professionals who work with families following a pregnancy or infant loss. This year we received the accolade of National contribution to Midwifery Education for our work in infant loss training and we were finalists for "Lifetime achievement" at this years Good Funeral Guide Awards. We also delivered a seminar in pregnancy and infant loss at the NAFD Exhibition this year. We work with charities such as CRUSE, JOEL, 4LOUIS and Pandalas.

Become an Accredited Professional

- By attending one of our training days you will be certified as a Foundation for Infant Loss accredited professional
- You will be listed on our website as an accredited member
- You will receive certification and use of our logo
- A group photograph and name listing will appear on our news page on our website and we will also arrange a press release and photograph for regional press.
