

### TRUSTEE ADVERT

Do you have an interest in developing local projects with adults to support community cohesion? Then Sawiyán may just be the charity to be involved in! Based in Sparkbrook, South East Birmingham, we are a growing charity who are transforming communities through projects such as our successful English Language Programme, skills developmental workshops, creative expression sessions and visits to local places of historical interests.

Managed by our Charity Manager and a team of passionate volunteers, the Management Committee are looking to develop our provision. We are seeking new members with an interest in faith based cross-cultural community engagement to contribute to our future developmental plans. We are particularly keen to recruit individuals with experience in charity and social enterprise leadership, finance, fundraising, and HR.

To find out more about what this entails, please contact Andrew Hardy or Michelle Savage.
